

NJTPA TIP FY 2026 - 2029

Acquisition of Right of Way

DBNUM: X12

AQ Code: O3 (Exempt)

RCIS: Program Management

Sponsor: NJDOT

This program funds advanced acquisition and/or demolition of; key right of way parcels, easements, transportation facilities, and access and development rights, in order to preserve transportation corridors for future transportation use.

ADA Curb Ramp Implementation

DBNUM: 11344

AQ Code: AQ2 (Exempt)

RCIS: Pedestrian and Bicycle

Sponsor: NJDOT

This program was initiated from a Federal Highway Administration (FHWA) request of the NJDOT to complete an Americans with Disabilities Act (ADA) Curb Ramp Inventory, and to develop a Curb Ramp Implementation Program. A priority list of locations that are missing ADA curb ramps was developed, and funding provided by this program will be applied to projects that are missing ADA curb ramps statewide.

Aeronautics and UAS Program

DBNUM: 19315

AQ Code: Not Applicable

RCIS: Program Management

Sponsor: NJDOT

This program provides funding for programs delivered under the Bureau of Aeronautics. The programs supported include the State Airport System Plan (SASP); the Public Use Airport Task Force ; the Aeronautical Facilities Licensing Program; the Unmanned Aircraft Systems (UAS) Program for various inspections and programs; the Airport Management Program for the two NJDOT owned airports - Greenwood Lake Airport and South Jersey Regional Airport; the Air Safety and Zoning Program; and Airport Safety and Inspection.

NJTPA TIP FY 2026 - 2029

Airport Improvement Program

DBNUM: 08415

AQ Code: Not Applicable

RCIS: Program Management

Sponsor: NJDOT

This program provides funding for grants awarded by the Commissioner of the NJDOT pursuant to a competitive application process for project types, including but not limited to, safety, preservation, rehabilitation, and capital improvements (such as runway, taxiway and apron improvements, airport lighting and navigational aids, aviation fuel farms, automated weather observation systems, airport security, and airport access roads). Such grants may be used at public-use general aviation airports for aviation planning purposes, aviation studies, airport feasibility studies, and/or to provide funds which will help match and capture federal funds. This program may also fund capital improvements to airports owned by the state.

Betterments, Dams

DBNUM: 01335

AQ Code: Not Applicable

RCIS: Road Preservation

Sponsor: NJDOT

This program provides funding for NJ Department of Environmental Protection mandated cyclic (2 year) inspections and the preparation and maintenance of Emergency Action Plans (EAP), Operations and Maintenance Manuals (O&M) and Hydrology and Hydraulics (H&H) engineering studies for NJDOT owned dams. If needed, minor improvements will be provided for hydraulically inadequate dams located on the state highway system.

Bicycle & Pedestrian Facilities/Accommodations

DBNUM: X185 **AQ Code:** AQ2 (Exempt) **RCIS:** Pedestrian and Bicycle **Sponsor:** NJDOT

This is a comprehensive program to ensure the broad implementation of the Statewide Bicycle and Pedestrian Master Plan, Complete Streets Policy and the implementation of federal and state policies and procedures pertaining to bicycle, pedestrian, transit and ADA access, mobility, and safety. It includes addressing bicycle, pedestrian, transit and micro-mobility travel needs through the development of improvements on state, county and local roadways either by inclusion in existing capital projects, development of independent projects or through assistance to counties and municipalities. Projects must accommodate the needs of all travelers.

Bridge Deck/Superstructure Replacement Program

DBNUM: 03304 **AQ Code:** S19 (Exempt) **RCIS:** Bridge Preservation **Sponsor:** NJDOT

This program will provide funding for design and construction of deck preservation, deck replacement and superstructure replacement projects in various locations throughout the state. This is a statewide program which will address an approved priority listing of deficient bridge decks. This program will also provide funding for recommendations, coring, non-destructive evaluation/testing, survey, aerial photography, photogrammetry, base mapping and engineering.

Bridge Emergency Repair

DBNUM: 98315 **AQ Code:** S19 (Exempt) **RCIS:** Bridge Preservation **Sponsor:** NJDOT

This program allows the NJDOT to provide emergency bridge repairs through various Bridge Maintenance Contracts (i.e., Concrete Structural Repair, Structural Steel Repair, and Timber Structure Repair contracts). The program also allows the NJDOT to obtain emergency technical consultant assistance, for inspection and repair design, when the safety of a bridge(s) is compromised due to unavoidable circumstances (a collision, flood damage, etc.) These consultants will be available to assist NJDOT personnel on an as-needed basis.

Bridge Inspection

DBNUM: X07A **AQ Code:** S6 (Exempt) **RCIS:** Bridge Preservation **Sponsor:** NJDOT

This program will provide funding for inspection of highway-carrying state NBIS bridges and local NBIS bridges as required by federal regulations. Also, this program enables the in-depth scour evaluation of potentially scour susceptible bridges, load rating calculations, overweight truck analysis, and NHI trainings.

Bridge Inspection Program, Minor Bridges

DBNUM: **17341**

AQ Code: S6, S19 (Exempt) RCIS: Bridge Preservation

Sponsor: NJDOT

This program will provide funding for inspection of state-owned, county-owned and locally-owned highway-carrying Minor bridges (culverts). Minor bridges are greater than 5 feet and less than 20 feet in length.

Bridge Maintenance and Repair, Movable Bridges

DBNUM: **14404**

AQ Code: S19 (Exempt) RCIS: Bridge Preservation

Sponsor: NJDOT

This Operations program allows the NJDOT to provide emergency movable bridge and tunnel repairs on a 24/7 basis. The funding will be utilized to address priority structural repair deficiencies, and Public Employees' Occupational Safety and Health Act (PEOSHA) violations, that are identified during in-depth inspections. Movable bridges are required to operate on-demand and adhere to drawbridge operation regulations pursuant to title 33, Code of Federal Regulations.

Bridge Preventive Maintenance

DBNUM: 13323 **AQ Code:** S19 (Exempt) **RCIS:** Bridge Preservation **Sponsor:** NJDOT

This program provides funding for bridge preservation activities (including painting, deck repairs, and substructure repairs) as a means of extending structure life. Painting contracts shall include painting of steel on various structures, as an anti-corrosion measure, and will be awarded based on an approved list of bridges considering the availability and regional breakdown of funding. Preventive maintenance contracts shall include deck repairs, header reconstruction, curb reconstruction, joint resealing, substructure concrete repairs, and sealing of entire structures, with structures systematically prioritized by corridor or geographical area. Both painting and preventive maintenance contracts are awarded to preserve and prolong the useful service life of bridges, in accordance with the NJDOT Bridge Preventive Maintenance Program.

CMAQ Initiatives, Statewide

DBNUM: 22355

AQ Code: O10c (Exempt)

RCIS: Environment and Resilience

Sponsor: NJDOT

The Congestion Mitigation and Air Quality Improvement Program (CMAQ) is to provide a flexible funding source for transportation projects and programs to help meet the requirements of the Clean Air Act. Funding is available to reduce congestion and improve air quality for areas that do not meet the National Ambient Air Quality Standards for ozone, carbon monoxide, or particulate matter (nonattainment areas) and the former nonattainment areas that are now in compliance (maintenance areas).

Congestion Relief, Intelligent Transportation System Improvements (Smart Move Program)

DBNUM: 02379

AQ Code: NR1 (Exempt)

RCIS: ITS and Incident Management

Sponsor: NJDOT

This program provides funding for low-cost, quick-turnaround intelligent transportation system (ITS) improvements, which improve traffic flow and provide traveler information on the state's transportation system. This program will provide for the deployment of these systems through either separate ITS projects, or inclusion of ITS within existing roadway and bridge infrastructure preservation projects to ensure implementation of ITS at a minimum cost and a minimum disruption to traffic during construction. Design support to add ITS components and/or standards may be accomplished through using consultants. ITS equipment are long lead time items and this program will allow procurement to proceed in advance and then to be installed in the first stages to also assist in the mitigation of traffic impacts during construction of those projects. ITS equipment may include Dynamic Message Signs, which provide real time traffic information, in strategic locations to allow the motoring public to make informed decisions on possible alternatives.

Design, Geotechnical Engineering Tasks

DBNUM: **05342**

AQ Code: O1 (Exempt)

RCIS: Program Management

Sponsor: NJDOT

This program will provide funding for term agreements to obtain consultant services to perform Geotechnical Services for various projects within the geographical confines of the state of New Jersey. The work covered by this agreement will be limited to Geotechnical Engineering Services and consists of two major tasks: conducting subsurface exploration programs and providing geotechnical designs and analysis for bridge and structure foundations, roadway engineering and rock engineering.

Highway Safety Improvement Program Planning

DBNUM: 09388 **AQ Code:** S6 (Exempt) **RCIS:** Direct Safety **Sponsor:** NJDOT

This item consists of three programs- Safety Management System (SMS) safety work program, Rail-Highway safety work program and any local safety plans or planning assistance needs. SMS, through guidance of the HSIP (23 CFR 924), identifies, prioritizes and implements safety programs and projects associated with the Safety Improvement Programs in an effort to reduce crashes and crash severity on New Jersey's roadways. The SMS work programs fulfill the staffing needs for the above identified function. The SMS work program also includes funding for Safety Resource center; the development, update, and implementation of the Strategic Highway Safety Plan (SHSP); Highway Safety Improvement Program (on-call) and any staff augmentation contracts. Rail-Highway Program will continue onsite inspection of public grade crossing to identify rail-highway grade crossing hazards to develop and implement rail-highway grade crossing safety improvements. Local safety plans and planning assistance will provide the MPOs with resources to develop plans and safety applications for their sub-regions, if needed.

Intelligent Traffic Signal Systems

DBNUM: 15343 **AQ Code:** NR2 (Exempt) **RCIS:** ITS and Incident Management **Sponsor:** NJDOT

This program will seek to improve mobility on New Jersey's arterial highways. By dynamically managing NJ's arterials from NJDOT's Arterial Management Center, this program supports NJDOT's Vision to employ technologies to adapt to changing conditions and environments. Existing traffic signals will be strategically, systematically, and programmatically upgraded from stand-alone signals to highly sophisticated, coordinated, adaptive traffic signals. These projects will consist of installing new controllers, intelligent software and algorithms, robust detection, communication, connected vehicle technology, and safety countermeasures at signalized intersections. These projects will aim to reduce congestion, improve air quality, and reduce carbon emissions. This program includes technical and engineering support to maintain and operate NJDOT's intelligent traffic signal systems and the communication infrastructure that supports those systems. This program also includes annual training for the various traffic signal related software and procedures that are utilized by NJDOT staff.

Mobility and Systems Engineering Program

DBNUM: 13306

AQ Code: Not Applicable

RCIS: ITS and Incident Management

Sponsor: NJDOT

This combined program seeks to improve mobility inclusive of but not limited to Intelligent Transportation Systems (ITS), monitoring Work zone Mobility and Advanced Traveler Information System (ATIS) programs. A combined program will allow for improved, cohesive and sustainable planning, design, procurement and deployment of operations' strategies such as ITS technologies and ATIS. Federal mandates such as: (a) following and maintaining ITS Architecture, (b) preparing TMPs for major construction projects, (c) motorist's information sharing (511), (d) "Every Day Counts" initiatives, (e) hard shoulder use, (f) performance measures and, (g) maintenance/upgrade/enhancement of existing ITS infrastructure and hardware are covered under this program. This program also includes review and development of new technology such as Connected Vehicle and the possible application, design, procurement, testing and deployment of such technologies. The development of contract documents and engineering plans for various projects and ITS contracts is also included. This program includes technical and engineering support needed for the Traffic Operations Centers development, enhancement and maintenance of the existing ITS infrastructure, ATIS associated database and funding for Multimodal Transportation Coordination and Information Related Services.

Motor Vehicle Crash Record Processing

DBNUM: X233

AQ Code: O10c (Exempt)

RCIS: Direct Safety

Sponsor: NJDOT

The Bureau of Transportation Data and Support (BTDS), Crash Records Unit, is responsible for collecting crash reports annually. These records, provided by the police, are used to identify causes, determine areas of focus, prioritize locations with high crash frequency, and develop effective traffic safety countermeasures. The activities include crash records processing using the NJCrash system, crash records database maintenance and updates, and vendor management for crash records. Furthermore, the activities encompass the validation of spatial data related to crash records, assistance with the visualization of these records, and the extraction and analysis of data for integration into analytical tools.

New Jersey Rail Freight Assistance Program

DBNUM: X34 **AQ Code:** Not Applicable **RCIS:** Dedicated Freight **Sponsor:** NJDOT

This program funds the rehabilitation and improvement of key elements of the New Jersey rail freight network. Funds are used for acquisition, rehabilitation, facility construction, and substitute service assistance under the State Freight Assistance Program. The program provides matching funds to federal grants and to participate in other projects and programs that improve the intermodal goods movement network and support economic development initiatives. The program also provides funding for the design, construction, reconstruction, rehabilitation, land acquisition, and environmental mitigation of freight rail projects that: are significant to port commerce connectivity; eliminate rail freight missing links to port facilities; or upgrade freight rail trackage to a 286,000 pound load carrying capacity.

New Jersey Scenic Byways Program

DBNUM: X200C **AQ Code:** O5 (Exempt) **RCIS:** Placemaking and Land Use **Sponsor:** NJDOT

This program will assist in the advancement of the NJ Scenic Byways Program and the stewardship and enhancement of the scenic, recreational, archaeological, natural, cultural and historic intrinsic qualities associated with the designated byways. Funding will be utilized for planning, design and development of the state program and for the planning, design, development, marketing and implementation of the complete set of byways within the state program. This includes but it's not limited to research leading to the development of themes for byways, activities associated with identifying and marketing tourist amenities on scenic byways on a statewide basis, activities associated with assessing the economic impacts on the set of byways, activities associated in building strong partnerships between the byways and other groups that can assist them in sustaining and promoting their byways. It also includes updating the signage needed to show designation as a National Scenic Byway, All American Road or NJ State Byway.

NJTPA TIP FY 2026 - 2029

Rail-Highway Grade Crossing Program, State

DBNUM: **X35A**

AQ Code: Not Applicable

RCIS: Direct Safety

Sponsor: NJDOT

This program will provide state funding for the elimination of hazards at rail-highway grade crossings by the closure of crossings or the upgrade/improvement of protective warning devices for roads throughout the state. This funding will allow flexibility in allocating monies for emergency repairs as well as to the areas in need regardless of their geographic location (MPO). This program will also allow grade crossing closures without drawing down the federal funds used for grade crossing improvements. Funding will also be provided for the design of traffic detours required for the crossing surface reconstruction projects.

This program will also provide funding for emergency repairs to the riding surface of highway-rail grade crossings identified during inspections or from complaints received. These repairs will be accomplished by an NJDOT contractor as priority situations are identified. These repairs will be limited to surface repairs that do not require railroad infrastructure work, or reconstruction of the crossing. This program will also include the installation of roadway-related items (signs, pavement markings) that have been identified as missing or needing replacement or are required (outstanding work from municipalities and counties) to close out federally funded grade crossing projects from previous years.

Resurfacing Program

DBNUM: X03E **AQ Code:** S10 (Exempt) **RCIS:** Road Preservation **Sponsor:** NJDOT

This comprehensive program funds renewed riding surfaces on state highways in order to prolong the life of pavement and provide an improved ride. This resurfacing program is a key component of the NJDOT's broader Pavement Management Program, which is aimed at preserving and extending the life of state highways. Individual highway segments are selected for resurfacing, or other treatments, through the NJDOT's Pavement Management System. This program consists primarily of resurfacing of highway segments, but may also include; selected repair activities, minor upgrades such as curbing, application of long-life pavement markings and raised pavement markers, and the acquisition of essential equipment and materials.

Statewide Traffic Operations and Support Program

DBNUM: 13308 **AQ Code:** Not Applicable **RCIS:** ITS and Incident Management **Sponsor:** NJDOT

This comprehensive Statewide Traffic Operations and support strategies program focuses on reducing non-recurring delays due to incidents, work zones, weather emergencies, poor signal timings, special events, etc. The program includes a Statewide Traffic Management Center (STMC), a Traffic Operations Center South (TOCS), a Safety Service Patrol (SSP), a NJDOT/NJSP Traffic Incident Management (TIM) Unit and a Central Dispatch Unit (CDU). The 24/7 Statewide Traffic Management Center (STMC) serves three primary functions: (1) It is the Traffic Operations Center (TOC) for the northern half of the state, (2) It provides for evening/weekend/holiday operations coverage for the entire state and (3) NJDOT is co-located with the New Jersey State Police and the New Jersey Turnpike Authority at the STMC to provide for a coordinated approach to handling traffic operations statewide. The 16/5 Traffic Operations Center South (TOCS) is responsible for coverage for the southern half of the state and monitors the Route 29 tunnel. The STMC handles coverage for TOCS during week nights (after 8:30 pm) and on weekends and holidays. The Safety Service Patrol (SSP) is deployed on congested corridors statewide to rapidly detect and clear incidents by providing safety for first responders and motorists. SSP also provides emergency assistance to disabled motorists. The 24/7 Central Dispatch Unit (CDU) is NJDOT's Emergency Call Center. The Traffic Incident Management (TIM) program is aimed at reducing delays due to traffic incidents. It provides for: (1) equipment and training for NJDOT's Incident Management Response Team (IMRT); (2) training and outreach for county and local emergency responders on methods to reduce traffic delays caused by incidents; (3) developing, printing and distributing diversion route manuals; (4) developing partnerships and outreach with local and state law enforcement organizations; and (5) maintaining a State Police Traffic Incident Management Unit.

NJTPA TIP FY 2026 - 2029

Storm Water Asset Management

DBNUM: 17353

AQ Code: S4 (Exempt)

RCIS: Environment and Resilience

Sponsor: NJDOT

This program maintains NJDOT compliance with USEPA water quality objectives and NJDEP storm water management regulations. It also ensures the state's infrastructure system is resilient under moderate to severe storm events. The Storm Water Asset Management plan evaluates and prioritizes needed repairs to storm water features, maintaining the integrity of the storm water system. The plan helps to minimize potential roadway flooding, and provides pollution prevention and abatement activities, which address stormwater management and control related to highway construction and/or due to highway runoff. The plan will identify all storm water features/assets owned or operated by NJDOT, assess conditions of the assets, develop plans for needed repairs to preserve the integrity of the assets, prioritize and conduct required repairs, and perform inspections to ensure repairs are completed in accordance with approved plans.

Title VI and Nondiscrimination Supporting Activities

DBNUM: 14300

AQ Code: Not Applicable

RCIS: Program Management

Sponsor: NJDOT

This is a State funded program that will support the activities required to ensure nondiscrimination in the delivery of the NJDOT Capital Program and related projects. Activities include, but are not limited to informational training sessions, translation services and the development of informational material (e.g., pamphlets, brochures, training guides and letters) disseminated to the public and in languages other than English as necessary. This program will also support activities and initiatives in the stand-alone Title VI programs, such as DBE and Contractor Compliance.

NJTPA TIP FY 2026 - 2029

Traffic Monitoring Systems

DBNUM: X66

AQ Code: O10a (Exempt)

RCIS: ITS and Incident Management

Sponsor: NJDOT

This program facilitates the gathering of crucial traffic and roadway inventory data, encompassing traffic counts, vehicle classifications, truck weights, roadway video, automated mapping, and various geographical information system activities. It includes the construction, reconstruction, and restoration of Weigh-in-Motion and Traffic Volume Systems. Equipment is acquired to maintain, upgrade, or replace any failed devices. Site selection adheres to federal requirements, guided by the Traffic Monitoring Guide and the NJDOT's Traffic Monitoring System implementation plan, which has received approval from the Federal Highway Administration (FHWA). Funding is allocated for professional services to implement the short-term traffic monitoring program, including data collection, visualization, and analysis. The program covers updates and maintenance of the Straight-Line-Diagrams (SLD), annual Highway Performance Monitoring System (HPMS), and Roadway Network File (RNF). Efforts in data collection involve analysis, visualization, and dissemination using current or revised methods. Exploration and evaluation of new data collection technologies, such as software, hardware, and data extraction tools. Updates to the local road inventory database, replacement of in-road traffic monitoring sensors, and support for various data transfers and sharing are included. HPMS support involves collecting sample section information, utilizing Light Detection and Ranging (LiDAR), and maintaining Roadway Imaging and associated programs to comply with FHWA requirements. Oversight of pilot initiatives aims to explore new technologies, enhance Bureau operating procedures, and ensure efficient collection and dissemination of data. Bureau support of agreement/contract oversight, data and document scanning and reference, improved workflows, development of standard operating procedures, and training guides and tutorials.

Traffic Signal Replacement

DBNUM: X47

AQ Code: S7 (Exempt)

RCIS: ITS and Incident Management

Sponsor: NJDOT

This program provides funding for; purchase of materials, installation of new and upgraded traffic signals statewide, related improvements to the operation of signals. This program provides for the replacement of traffic signals on an annual basis, and assists regional operations in the rehabilitation and maintenance of the state's highway lighting system. It also includes the conversion to LED indicators, and installation of generators to provide auxiliary power, which will enable traffic signals to function during times of extended power outages. Through the Traffic Signal Management System, which provides a condition rating of signal equipment integrated with crash data and Congestion Management System Data, this program (developed via consultant RFP, analyzing corridor segments and creating a safety ranking based on MUTCD compliance, pedestrian facilities, controller capabilities, method of detection, accessibility, and other factors) will prioritize signals for replacement based on the above factors. The results from establishing the priority locations will allow systematic replacement of aging signal equipment, optimization of the operation of signals, and promote maximum efficiency of intersections.
